

GIM Capacity Building

## PRESS RELEASE

Cluj-Napoca, Romania, April 15 , 2019

# Growing in Insight-ability of Mobility GIM

### Project financed by the Erasmus+ Programme of the European Union

GIM is a capacity-building project involving 4 partners from Romania, Italy, Argentina and Peru. The specific aim of the project is to build competences of youth workers in order to empower inclusion, active participation and entrepreneurial skills of fewer opportunities youth, as well as youth who have minor disabilities, from South America and Europe, excluded on behalf of their impairment, social status, financial status or education.

The objectives of GIM are (1) fostering empowerment - active participation and sense of entrepreneurship of fewer opportunities youth and (2) promoting social inclusion of this target group aged 18 to 25 years old in their countries through developing comprehensive NFE educational methods and techniques by deploying a complementary set of knowledge, experience and specialised competences embedded in the different partner organisations and regional approaches. In the same time we are bridging involvement of successful entrepreneurs and youth/social workers and the target youth for inspiring entrepreneurial dialogue and action taking amongst NGOs and their beneficiaries.

The first trans-national meeting takes place in Cluj-Napoca, Romania, between April 16-19, 2019. It is a kick-off meeting that brings together responsible of all partners (project managers / coordinators) that will discuss topics regarding project management, financial aspects, partnership agreements, task division, profile of participants, communication strategies, dissemination, promotion and visibility plans. The partners also discuss the timetable of planned activities.

The official opening of the kick-off meeting will be on Tuesday, April 16, 2019, 10:00 AM, at the Special High School for Visual Impaired Cluj-Napoca.
